デジタル通貨共産主義

共産主義を理解するのは、日本人にとってかなり厄介です。というのは、今の国民は、共産主義を実際に体験したことがないからです。中国やロシアが、共産主義国家であるという知識を持っている人は多いでしょうが、実は、その内容については、信憑性に乏しいのです。

マルクス主義という言葉聞いたことがある人は、多いかもしれません。でも、マルクス主義を説明できる人はいるのでしょうか?おそらく、マルクスの資本論を学んだ人は、そこから推論して、自由主義を基盤とする資本主義経済を否定する思想だと言われるでしょう。

ところで、マルクス主義というものは、いかなるもののでしょうか?実のところ、そんな主義は存在しないのです。マルクスは、資本論を書いた経済学者であって、政治家ではないのです。政治的なマルクス主義なるものを作り出したのは、マルクス本人ではなく、レーニンとスターリンなのです。

レーニンとスターリンが、資本主義国家に対抗する共産主義国家を建設するときに利用した政治思想が、マルクス主義なのです。つまり、マルクス主義なるものは、政治利用された言葉でしかないのです。

おそらく、マルクス主義は、経済的平等を実現する思想と思っている日本人は多いのではないだろうか？ でも、実は、マルクスは、経済的平等を実現するための具体的な政策については、一切言及していません。マルクスは、資本主義経済は、貧富の格差を生み出す経済システムであることを理論的に解説したに過ぎないのです。彼が述べたことは、あくまでも、資本は平等であるべきだという「夢」を語ったに過ぎないのです。

科学が進歩した現代において、共産主義はどのように実現されるのでしょうか？ 一つ考えられることは、デジタル通貨で、国民の資産を管理します。さらに、ロボットのAI人間を作り出し、国家が彼らを完全にデータ管理します。さらに、彼らを完全に国家に従わせ、組織間の経済的対立を解消します。

近い将来、そのような社会が実現される可能性があります。すべてがシステム化されたスーパーシティに優雅に暮らす人々の姿が、思い浮かべられます。でも、ロボットのAI人間に幸福と夢があるのでしょうか？

Storm of the communism

A Japanese is religious by nature. Therefore the person is easy to be deceived when the person hears a convenient story. The objective way of thinking will be very useful for an audience. Our fight to open up the future has just begun. Well, we will continue splendid Japan in unison. The person moves in an organization. A fight is a fight between an organization and the organization. Therefore the opinion of the strong man is adopted even if the weak was a just argument. Particularly, for the business, this appears conspicuously. Therefore it is necessary for the weak to organize an organization in conflict with a strong man. Surely you can organize a strong organization. Please do your best. I pray to have protection of Yahweh.

The Japanese Government must look at this video well. And the Japanese government should recognize the error of the current policy. The most important matter: ① Cancel emergency declaration. ② Abolish a polymerase chain reaction test. ③ Do not give gene vaccine to a Japanese citizen. ④ Propose a policy to plan revival of economy and

education immediately. We must never permit the world where evil expels justice. We will support messengers of the justice until an evil spirit passes away from the face of the Earth.

A main weapon of the global war is a drug weapon not a nuclear weapon. Japan receives a drug weapon attack, and the Japanese is facing a crisis of the extinction now. The Japanese does not originally like fights. In addition, the Japanese has character to follow the nation obediently. After the Great East Asia War, It was told the postwar children that the Japanese who did an aggressive war was an inferior race. However, the diligent Japanese revived Japan burnt to the ground and contributed to the world. This proves that a Japanese is an excellent race. However, there is a race to envy an excellent Japanese. They torment a Japanese using a drug weapon. I hope that a Japanese is not annihilated in a drug weapon.

A person is religious by nature. The believers of various religion such as Judaism, christianity, Islam, Buddhism, the Emperor religion, the President religion, a nation religion, an educational background religion, an honor religion and super-wealth religion are born. Why does a person like believing it like this? Probably, this will be because everybody needs pleasure. The Communist China Mafia did a holocaust in Tibetan and Uygru people. The Japanese Government invaded by Communist China Mafia tries Japanese slaughter using gene vaccine. The Japanese will be exterminated if gene vaccine vaccination was done all the Japanese. Can the Japanese sense this crisis ? Can the Japanese fight against the Japanese Government?

The crisis of the Japanese race extinction approaches in front. But the Japanese does not

notice it. It is kasuga great gracious god that protects the Japanese race which Yahweh created. We do not have the postponement of moment,too. A soldier of the People's Liberation Army enters Japan one after another. The Japanese will become dementia by pharmaceutical products more and more in future. The Japanese citizen should doubt the government, the media and a doctor. The People's Liberation Army base is built steadily in Hokkaido. A base will be built in future in the various parts of Japan.

The Japanese becomes dementia by internal exposure, pharmaceutical products, vaccine, food additives, a game and electromagnetic wave. The Japanese will become the yellow monkey having a low intelligence in the near future. Vaccine and internal exposure cause the mental disabilities. In addition, they cause various diseases. It may be said that the vaccination is a national crime. Soldiers of the People's Liberation Army named the skill trainee enter Japan from China and Vietnam. An all-out attack to Japan by China begins. This is a actual situation that Japanese Government is invaded by Communist China Mafia. The Japanese citizen must impeach Japanese Government as soon as possible.

Japan,Taiwan and The United States are incorporated in China. The future in Japan is the future in China. The Japanese citizen should defeat the current administration. In other words, it means that Japan will become a Chinese follower in the near future. The devils make a human being dementia with education and a drug. An aim of the devils is to let a human being having a low intelligence work as a slave. In Japan, a reign of terror has already begun. The Communist China media is intended to make Japan the Communism. People resisting communism are purged. The liberalist is jeopardized.

I approve you. The media spreads fear without grounds in the all over Japan. And the Japanese Government forces a mask, PCR test and gene vaccine. These are politics to make Japan the communism. The Japanese citizen must form a political party in conflict with the current administration as soon as possible. Your courage will create the bright future in Japan. An excellent Japanese will pull the world. By the given news, we should not believe it blindly. And we should give own opinion with courage clearly. Ikegami of the journalist would want to tell a Japanese citizen them. The Japanese citizen believes it blindly in the existing government, the media and doctors. There is a forged pharmacy article practically. It is thought that the Japanese is easy to be deceived for a title of the educational background. This will be an evil of the educational background society.

The present United States is not the modern nation where there were freedom and a dream. There is the communism Mafia nation where there is neither the morality nor the law. The nation is watched thoroughly by a Mafia. And the labor of the slave is forced on them. Japan is approaching the communism Mafia nation, too. We believe it blindly by own knowledge. In addition, we often have that own knowledge is denied by another person. We have antipathy towards them in such as case. We understand oneself while repeating it. Please do your best patiently. You will be appreciated by all means.

6

There will be the concern that gene vaccination is conditioned in future. For example, cases to engage a medical service, the welfare duties, eating and drink duties, education duties, are thought about. When conditioning is carried out, personal intention is not respect. Many people will be forced to gene vaccination out of necessity to get an income. And it is an opportunity when conditioning of the gene vaccination destroys liberalism. Therefore, we must object to conditioning of the gene vaccination determinedly.

The Japanese Government is not going to know the poor state by the corona evil. In addition, the Japanese Government is not going to plan the needy relief policy. The government is regarding emergency declaration as the best policy. But depauperation advances more and more practically. What the government should do now is the bankruptcy prevention policy of the medium and small-sized business and employment support of the unemployed person.

The lies such as COVID-19, a polymerase chain reaction test and the gene vaccine are big crimes to remain for a history. The Japanese citizen should notice a communism policy of the current administration. If a Japanese citizen does not defeat the current administration, Japan will become the communist state which Communist China rules in the near future. Communist China performs speech oppression, forcible escort, forced labor, involuntary hospitalization and thought education for Uygru people. In Japan, they will be performed in the near future. The world becomes the devil communism. The devil erases not only the information but also the source of information. Is there the thing which can opposed to the devil? It must be the maniacs whom Yahweh sent to the ground if. Aim at 1000 million enrollment!!! Destroy 1000 devils plan!

Religious precepts produce a degenerate and sex offenders. All over the world, there will be the sexual victims raped by clergymen a lot. In addition, the sexual victims do not wish sex damage is released. Therefore, the sexual crime of the clergyman does not received social sanctions. The accusation of the courageous sexual victims will uncover

substance of the religious world. I hope that social sanctions fall to the clergymen of the devil. A religious group is a fraud group. But the fraud religious group continues forever because there are deceived believers. It came to light from the confession of the sexual victims that there are degenerates in clergymen. But they are concealed. You should not enroll in the religious group easily. It is caution required.

United States and Japan already become the communist state. The Japanese must study communism of Communist China well. As for the Japanese who cannot adapt himself/herself to communism, a mind disorder occurs. And they will commit suicide. The Communism of Communist China is a reign terror. Speech oppression becomes severer and severer, and the voice of the nation will be put out. On the earth, the communism surpasses liberalism. The human cannot restrain it anymore. The human must think about communism seriously. In reference to American communism, the Japanese should think about the future in Japan.

The super intellectual group makes a robot and a robotic human being. The robotic human being is the human being who intelligence to control intention is removed and acts according to outside instructions. The Olympics are managed with volunteer support. Volunteer refusal will increase rapidly in future. For a corona evil, the youth is poor. At first the government should relieve a youth. Judging from the present situation, a global economic crisis will come several months later. Unfortunately the Tokyo Olympics may become the illusion.

A lot of Jewish Chinese and Jewish Koreans lives in Japan which is an emigrant nation. Therefore the Japanese is considered to be a Jewish race. Furthermore, the Old Shinto is said to be similar to Judaism. As a thing to evidence, the form of the Judaism shrine emerges in the form of the Shinto shrine of Japan. Japan is very interesting country. The Japanese must be a race suitable for communism. The Japanese will learn communism from the basics in compulsory education in the near future. In addition, the official language will become English and Chinese in Japan. Therefore an Americans and a Chinese will be employed as a teacher more and more.

Musk wearing, PCR test and the gene vaccination are politics of the Japanese Government to spread Egyptian bondage communism. The Japanese continues enjoying the life of the slave after World War II. Therefore the Japanese does not have a sense of incongruity in Egyptian bondage communication. A Japanese citizen is indifferent to the issue of the Uygur human rights. Therefore the Japanese citizen does not criticize the government about it even if Japanese Government does not mention the issue of the Uygur human rights. This means that a Japanese citizen has already received communism. But the Japanese citizen has not experienced a reign of terror of the communism yet. The Japanese citizen will know the substance of the communism politics in future.

The Japanese may have by nature the character that can enjoy slave life. In addition, this character may be a thing peculiar to a Jewish race. In fact, the Japanese is not going to resist an Egyptian bondage communism policy of the Japanese Government in the corona evil. The character not to like fights maintains peaceful society from World War II until today . But this character may cause extinction of the Japanese race.

The excellent Jewish Japanese will suddenly decrease by communism politics in future. The excellent Jewish race is destined to receive bullying by a stupid race. Important thing is to listen to true heart. Then, a voice of Yahweh will reach our ear. Young excellent Jewish Japanese are the only one being able to fight against a super intelligence devil group. The Japanese is an excellent Jewish race. The stupid race is afraid of an excellent Jewish race. Therefore the excellent Jewish race has been persecuted historically. The excellent Jewish Japanese is more likely to be persecuted in future. The excellent Jewish Japanese loves to believe it. Therefore we can spend the happy life. But there is a stupid race to persecute an excellent Jewish Japanese using the character.

The intellectual devils give people fear. Then the people demand a savior. And the devil of genius puts on the mask of the savior and becomes a hero. Love and the happiness are very dangerous. The Japanese etymology is Hebrew. An Israeli and a Japanese are brothers. Let's get along well. The Japanese loving a dream and love may be suitable for Egyptian bondage communism.

In the near future, the Japanese will be taken in the same way as an Uyghur people by the Communist China Police. The current administration is Communist China Mafia. Caution required! The Japanese Government is Communism to increase a difference of the poverty and wealth. The nation must defeat the current administration. Mask wearing, a polymerase chain reaction test and the gene vaccination are the Egyptian bondage Communism policies. Homeless people will increase rapidly in the near future. The Japanese youth hesitates about marriage for poverty. For these past several years, the number of the birth decreases.

Unfortunately Japan will become extinct from the face of the Earth. It will be a Jewish alien that can finally live on the earth. Japan is already an autocracy communist state. As for all normal nations, anger blows up. Please criticize the current administration in Kansai dialect more and more from now on. History is nothing more than a hypothesis. The intelligence is only an asymptote to reality. The population of Japan will become about 20 million people in the future. The place suitable for residence in Japan will be only Hokkaido and Kyushu. The robotic human being may live an elegant life at that time. The Japanese has harmony thought similar to an Uygur person. Japan will follow fate same as an Uygur person. White Mafia and the Communist China Mafia conspire and commit an evil deed.

The Emperor was installed as a Jewish Idol, but the Emperor has already become extinct. The Jew does not need a Japanese or Uygur person line anymore. In Japan occupied by China, the word Japan may become extinct in the near future. In the United States, Europe and Asia, digital currency economy communism society will be born in the future. Therefore, Japanese yen of Japan and the dollar of the United States become extinct. The world population is reduced, but on the other hand, the Jew builds the society where a super intellectual robotic human being manages the human being. The human being can enjoy happiness and the love as a slave then.

COVID-19

In the first place the gene structure of the new corona virus (SARS-CoV-2) is not an existing thing. It was created in reference to SARS-CoV. The Japanese Government must reexamine preventive measures against COVID-19 immediately. COVID-19 is only a feeble corona cold. In addition, the commoner is not aggravated. The case fatality rate of COVID-19 is much lower than case fatality rate of influenza. Therefore, we do not have to be afraid of COVID-19.

COVID-19 is a simple corona cold. Most Japanese has an antibody of a corona cold. Even if the Japanese is infected with a corona cold, most people are not aggravated. It is a person with underlying disease that is aggravated. PCR test positive is a corona cold. Therefore neither isolation nor hospitalization is necessary even if positive. Going to hospital is enough for treatment. The Japanese does not need to be afraid of a corona cold. We should live a normal life. The Japanese Government should improve preventive measures against COVID-19 as soon as possible.

A doctor is the greatest person. The medicine can cure a disease. There are people who think so a lot. Therefore gene vaccine can transform it self into an ultra man from the devil. Experiment on a human body of the gene vaccine is carried out by the Jewish race. Is the race an Israeli and a Japanese ? Materials of the vaccine include a virus, mercury, aluminum, a surfactant, formalin, an antibiotic. These cause autism, mental disabilities, an intractable disease, an allergy. The virus passes a mask. Therefore the mask does not become the infection prevention. In addition, the mask is dangerous to cause dyspnea.

The vaccine which mercury, aluminum and a surfactant are included in is a drug weapon causing a disease. The death fact after the gene vaccine proves hazardousness of the gene vaccine. The gene vaccination is a nation crime. The vice-reaction of the gene vaccine causes sudden death and various unidentified disease. The government should stop gene vaccination immediately. There is much fake news recently. In addition, there is much news that is unnecessary for the nation. By genetic modification of the gene vaccine, the Japanese will work like a slave in future. The infection judgment by the enforcement of the polymerase chain reaction test is a big crime of the doctors who became a slave of the government.

He is not a medical department studies expert. He should feel responsibility in own remark. Many vice-reactions (mental disabilities, intractable disease, sudden death) with the vaccine are confirmed. Particularly, the inspection of the gene vaccine is hardly done. His opinion does not have medical grounds. Using a title of the Special Advisor to the Cabinet, it is a crime that he pretends to be the expert. Judging from case fatality rate data in 2020, COVID-19 does not have the risk equivalent to two kinds of infectious disease. In other words, there are not at all the grounds that Japanese Government authorizes COVID-19 for a designated infectious disease. Therefore, the Japanese Government should change COVID-19 to five kinds infectious disease from a designated infectious disease.

All the Japanese doctors must appeal for corona gene vaccination cancellation. The

corona gene vaccination is clear experiment on a human body. The government should cancel corona gene vaccination immediately. Two researchers who are former Pfizer employee appeal for corona gene vaccination cancellation. We should confirm some taking place vice -reaction cases practically. We should hear the opinion of Dr. Utsumi and Dr. Ohashi. Love and the blind belief are very dangerous.
